2. BY CAR

You can best get to know a country if you visit it by car. You can reach Slovenia via one of the border crossings with Italy, Austria, Hungary or Croatia, or you can rent a car in one of our car rental agencies. Slovenia's highways are good and clearly signposted, beside the roads you will find rest stops, inns with overnight accommodation, and motels.

3. RAIL TRAVEL

Almost every important tourist destination is served by modern and comfortable trains. Connections abroad are also excellent: you can come to Slovenia on direct lines from Italy, Austria, Hungary, Croatia, Czech Republic, Germany, Switzerland and Serbia. Train travel is convenient and inexpensive.

4. MARITIME TRAVEL

Vessels arriving in the territorial waters of Slovenia from abroad may land only at the docks of the international border crossings in Koper, Piran and in Izola (seasonal border crossing). Upon mooring the vessel, the vessel, its crew, and the passengers must be registered with the border authorities. The following documents are needed for the procedure: the original documents for the vessel (proof of ownership of the vessel or authorization for its use), the captain's certificate of qualification to operate the vessel and identity documents of people on the vessel.

5. BY BUS

It is also possible to reach Slovenia from neighbouring countries by bus. International bus transport is well organized and relatively inexpensive. The timetables and other information can be found at the web address.
